DJS Dairy
Dairy management app

GETTING STARTED

Your data, safe online

Every entry saves on the phone first, then goes online by itself. A new phone gets it all back when you sign in.

Sync by itself
When you leave the app

Refresh now
The round button

Safe offline too
Entries wait on the phone

A copy on the phone
Save or send a file

New phone
Sign in; it all comes back

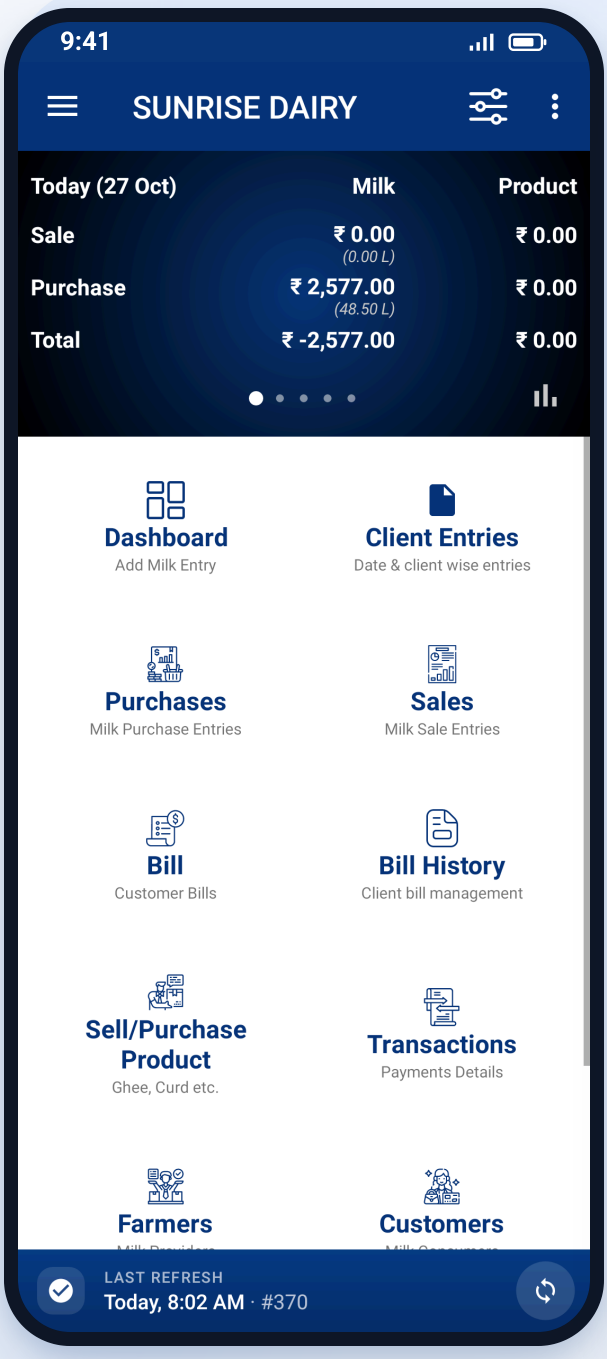

Same account
Google or password

SYNC

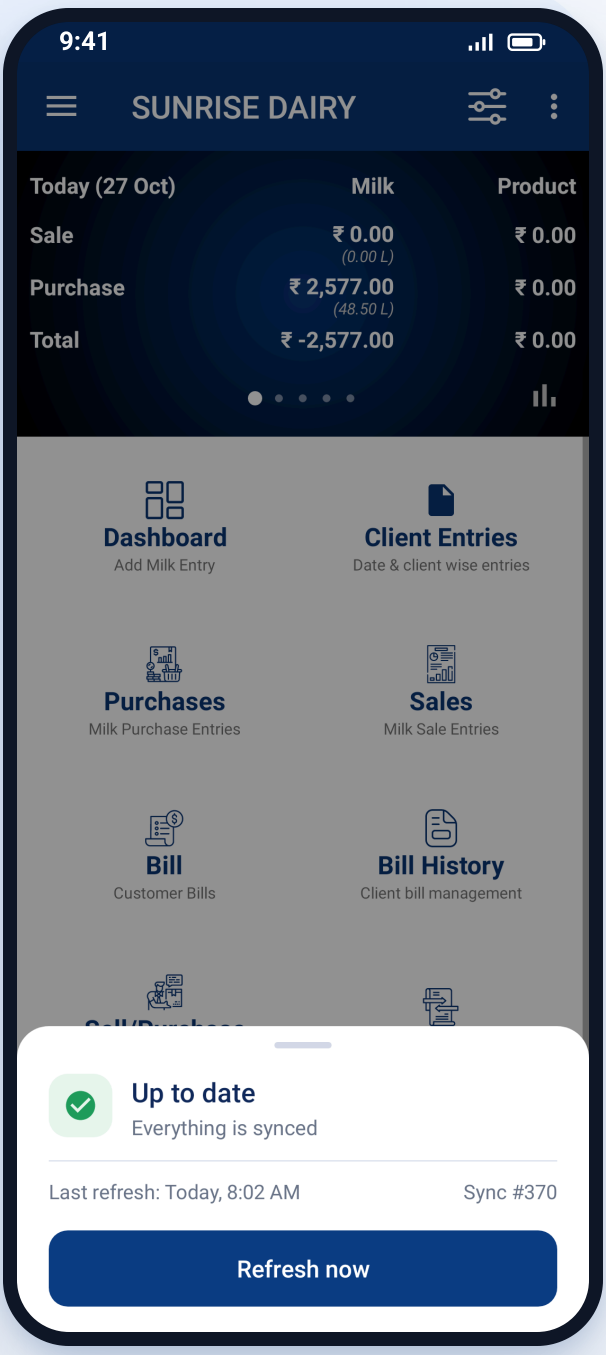

Entries go online by themselves

When you leave the app, new entries are sent. When another phone of your dairy changes something, Home brings it in.

● All sent

● Up to date

On leaving the app

Always on; it can't be turned off.

Refresh

The round button on the bar sends and fetches now.

Everything is synced

Shown when nothing is waiting.

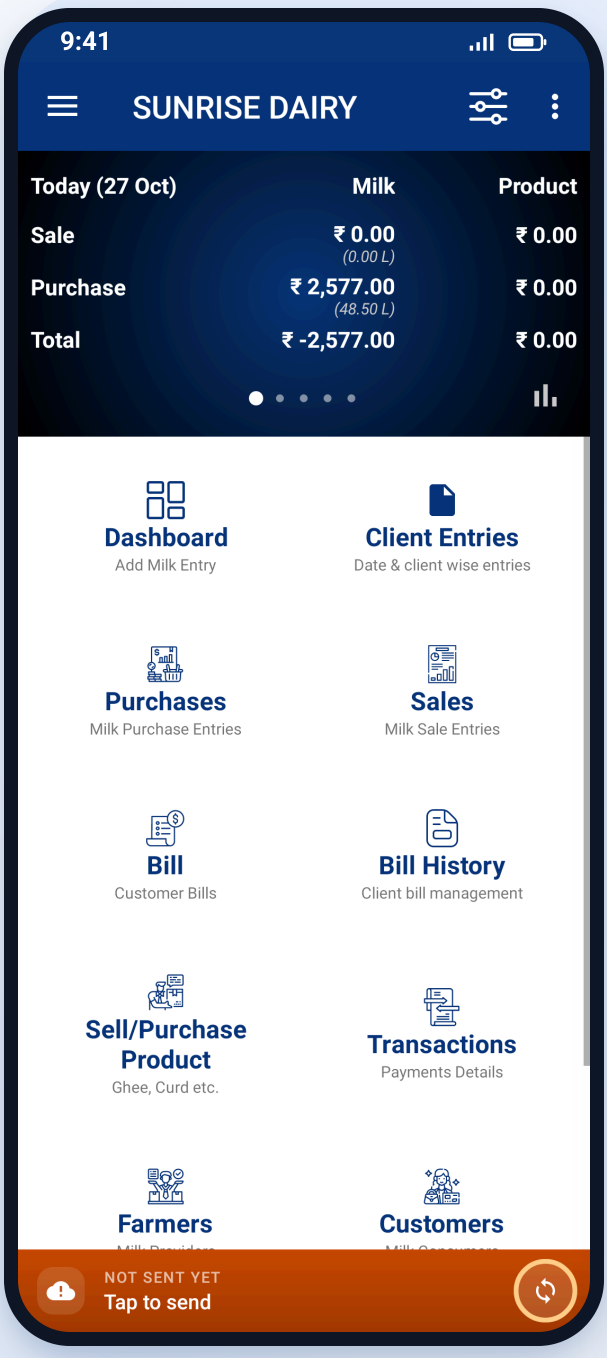

Where: **Home** › **bottom bar**

WHEN IT'S NOT SENT

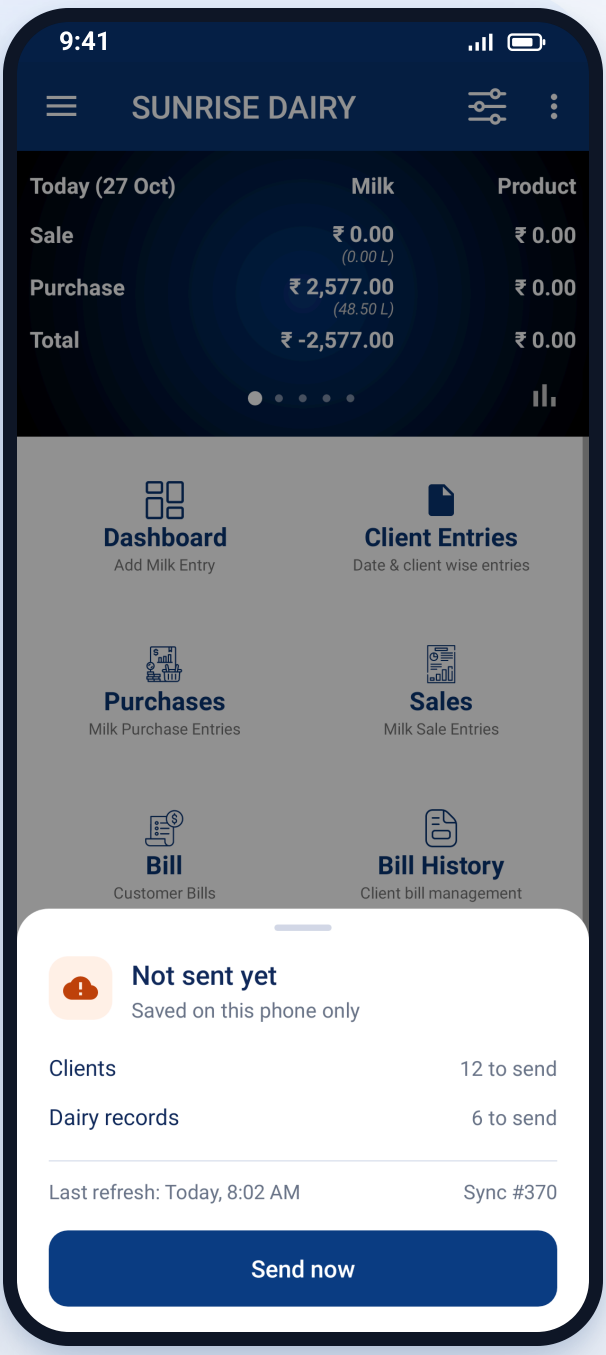

Orange or red: what to do

Entries made without internet wait safely on the phone. The bar stays orange until they are sent, and turns red if a refresh fails.

● Not sent yet

● Send now

Orange

Saved on this phone only. Tap the bar, then Send now.

Red

Shows the reason: no internet, date and time, or server.

Date and time

A wrong phone clock stops sync. Fix it in the phone's settings.

Where: Home › tap the bar

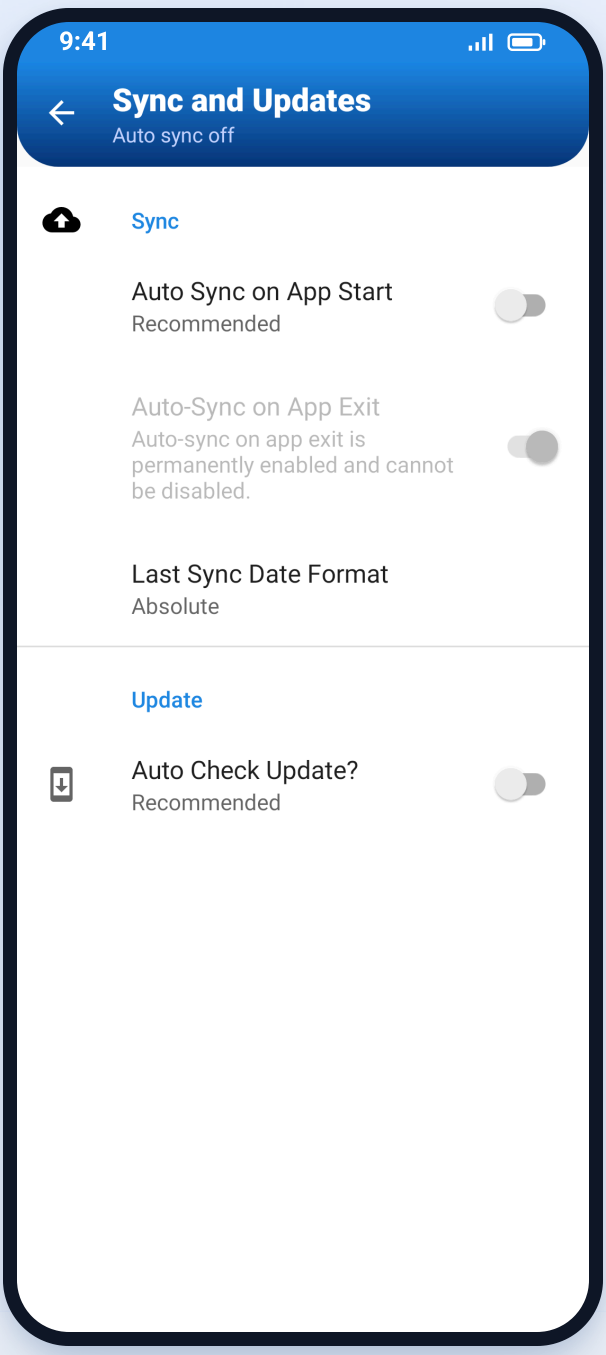

SYNC SETTINGS

Sync when the app opens, if you like

Sync and Updates can also sync every time the app opens, and sets how the last refresh time is shown.

Sync and Updates

Auto Sync on App Start

Off at first. Turn it on for fresh data each morning.

Auto-Sync on App Exit

Always on.

Last Sync Date Format

‘7 min ago’, or the exact date and time.

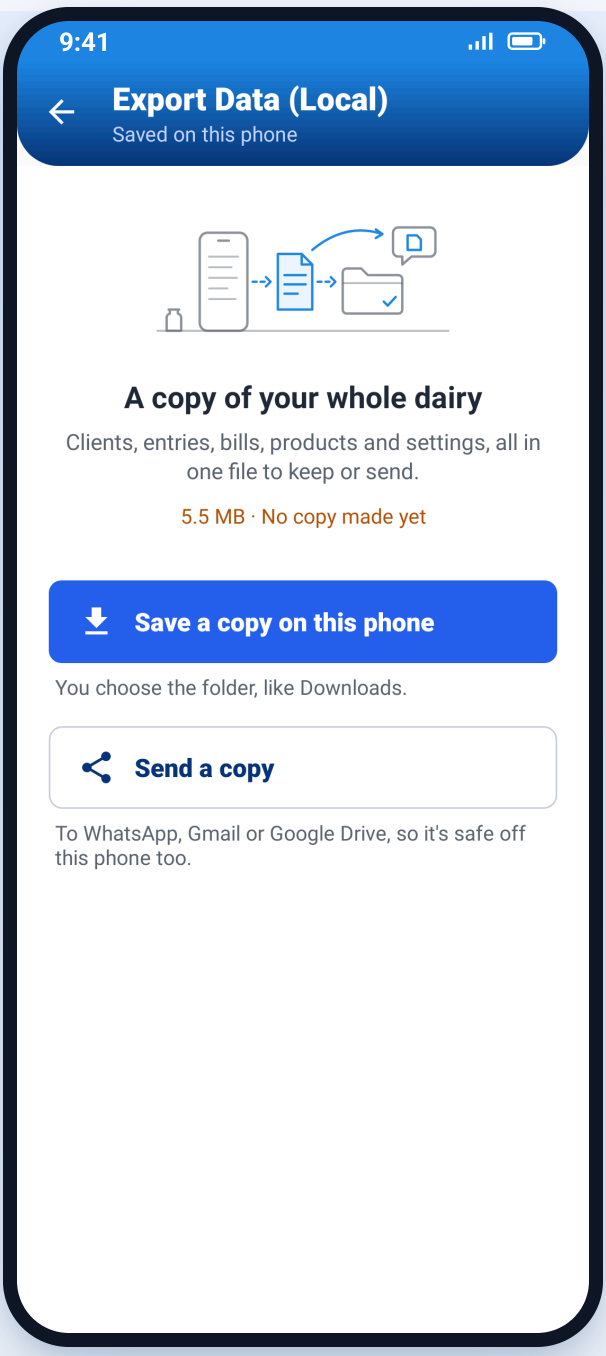

Where: Settings › Sync and Updates

A COPY ON YOUR PHONE

Keep your own copy of the whole dairy

Export Data makes one file with clients, entries, bills, products and settings. Save it on the phone, or send it to WhatsApp, Gmail or Drive.

● Export Data (Local)

Save a copy

You choose the folder, like Downloads.

Send a copy

To WhatsApp, Gmail or Google Drive.

Last copy

The screen shows when you last made one.

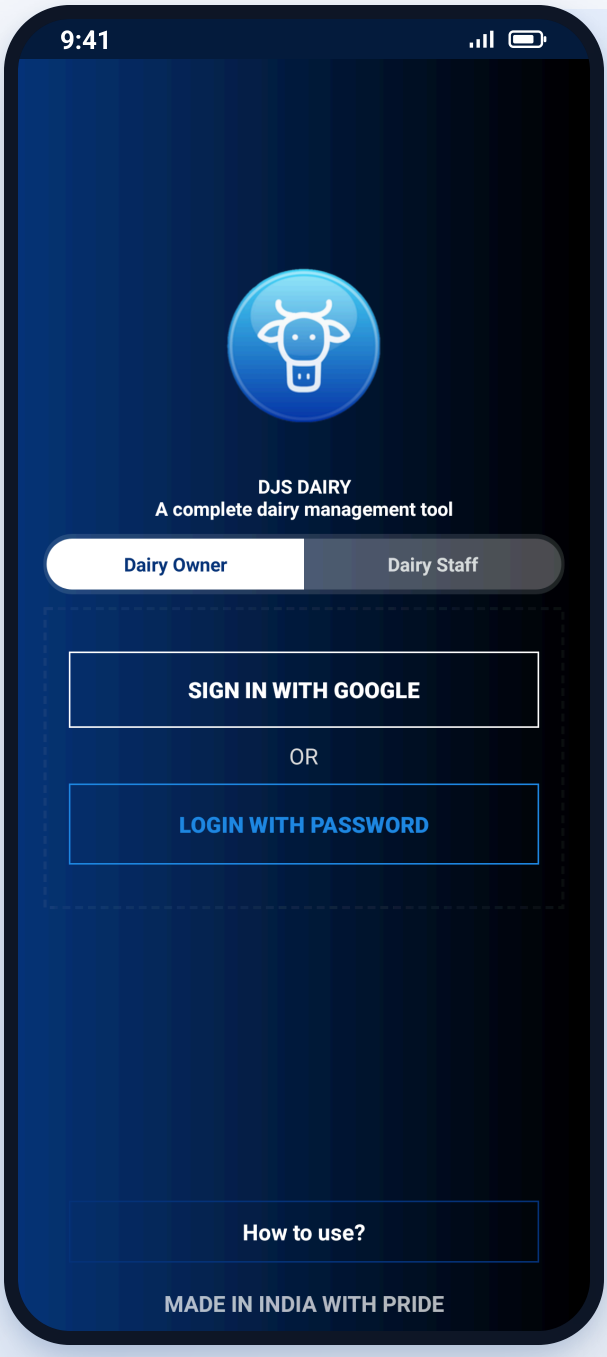

Where: **Settings** › **Export Data (Local)**

NEW PHONE

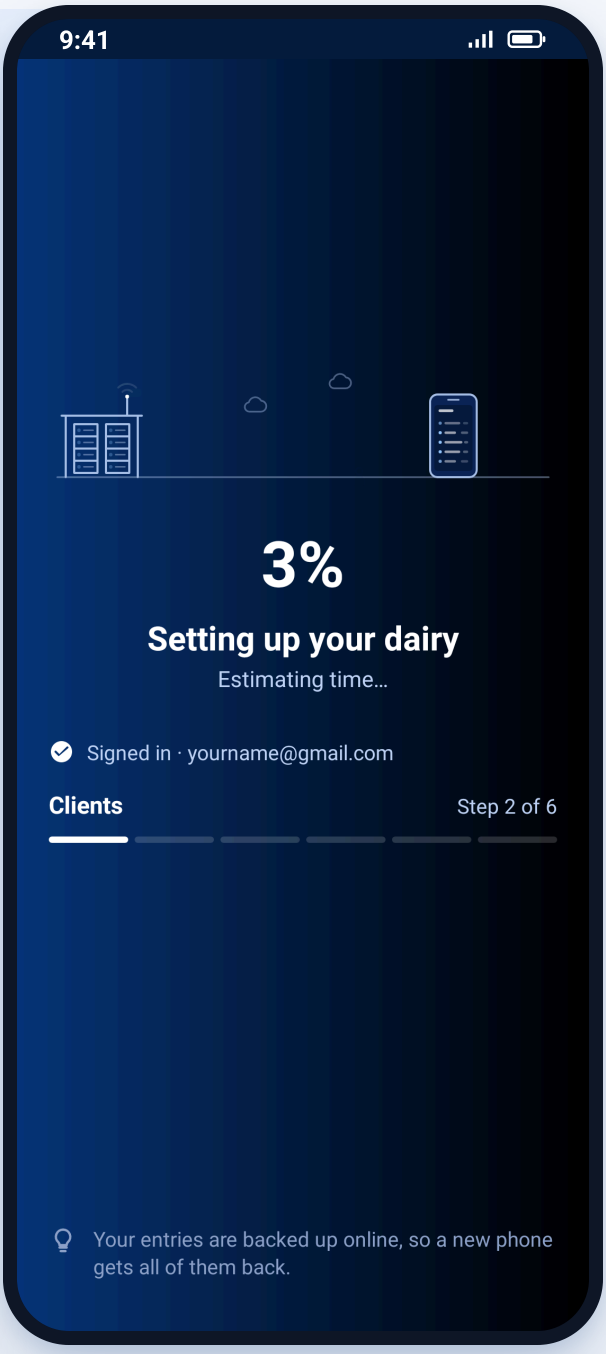

New phone? Sign in, and it all comes back

Install DJS Dairy, sign in with the same account and keep the internet on. Clients, entries, settings and rate charts come down step by step.

● Sign in

● Setting up your dairy

Same account

The Google account or email you use now.

Step by step

Clients, dairy records, settings, rate charts.

Home opens

When it's done. If it stops, tap Retry.

Where: **Sign-in screen**

Safe with 3 habits

Let it sync, watch the bar, and make a copy now and then.

1. Let the bar turn navy before the day ends
2. Orange? Tap the bar, then Send now
3. Now and then: Settings › Export Data

GOOD TO KNOW

Two phones?
Signing in on another phone asks to sign the first one out.

Sign Out
Asks to send unsent entries first.

The exported file
Your own record. A new phone gets its data online.

Thank you for running your dairy with DJS Dairy.
